

DR. MEYER IS TO ASSIST MOODY.

An Eloquent Divine Whom New York Will Hear.

Famous English Evangelist Speaks in the Gospel Tent.

FEARS THE THEATRES.

They Are Becoming Very Popular in Britain—Says Disestablishment Is Far Off.

The Rev. Dr. Frederick B. Meyer, pastor of Christ Congregational Church, London, and probably the most noted evangelist working in England, preached at the "Glad Tidings" Gospel Tent last night before a large congregation.

Dr. Meyer arrived in New York on the Campania yesterday morning. He is on his way to Northfield, Mass., to assist Mr. Moody in the religious conferences now in progress there. He will preach in the late Dr. John Hall's church, the Fifth Avenue Presbyterian, this morning and go to Northfield to-morrow.

This is the sixth visit of Dr. Meyer to this country. When he was here last year he conducted a series of services in Carnegie Hall, which attracted widespread interest. He also made a tour through the West and was greeted everywhere he went by large and enthusiastic congregations. Up to a short time ago Dr. Meyer was pastor of the aristocratic Regent Square Congregational Church in London, but he resigned his pastorate in order to take up work in the slums. The work he has accomplished at Christ Church, right in the heart of the poorest districts of the city, has profoundly affected all England.

Discussions in the Church.

Dr. Meyer was very glad yesterday to ex-

DALY HAS AN AXE OUT FOR GOURLEY.

Says the Chairman of New Jersey's Democracy Should Resign.

DAVIS WONT BE LEADER.

Lively Times at a "Harmony Conference," at Asbury Park To-morrow.

Representative William D. Daly, of the Seventh New Jersey District, has an axe out for Chairman William B. Gourley, of the State Democratic Committee, and lively times are expected at the "harmony conference" of the committee, which takes place at Asbury Park to-morrow.

Congressman Daly's grievance against Mr. Gourley is said to be caused by the latter failing to reappoint him one of the delegates-at-large of the State Committee. Mr. Daly says harmony cannot be restored to the Democratic ranks unless the leaders of the party in the State are re-elected. This statement will be construed by many to mean that Mr. Daly includes Mr. Gourley in the bunch of leaders who ought to step aside.

In an interview Congressman Daly reaffirms his allegiance to William Jennings Bryan, and at the same time proposes Robert Davis, Hudson County's leader, as the most fitting head for New Jersey's Democracy.

Not a Gold Party. Congressman Daly says: "The Democracy of New Jersey is not a gold party. It is a bimetallic party. I have been throughout the entire State since the election of 1896, and the rank and file of the party split the declaration of 16 to 1. Had the Chicago platform declared for a double standard, the Democratic law, instead of a declaration of 16 to 1, a different story would be told."

Opposed to Ratio Only. "I can mention the names of some prominent Democrats who opposed Mr. Bryan on account of this ratio being fixed in the platform, who otherwise would have supported him. Don't let anybody be deluded into the belief that a Democratic convention of New Jersey will ever declare for a gold standard."

"My personal wish is that the silver question, for the time being, may be subordinated to other and more vital questions which are now confronting the country, but the same old platform will do for me. If my party reaffirms it, the Democracy of New Jersey will follow no man who is not in absolute sympathy with the Chicago platform."

"My knowledge of the rank and file is that they have no use for any man who makes platforms for himself as against the platform of his party. The men of great wealth and the men of small means leave it. They are 16 to 1 for no other purpose than to use it for their personal gain. The Democratic platform is inconsistent with the means now used to acquire wealth."

"The Democratic party is the party of the people, friend of the masses, and wealth has no sympathy with it. The Democratic leadership of the party should fall upon Robert Davis. I know no man in New Jersey more competent than Hudson's favorite leader. If our organization was demonstrated by the magnificent majority given to the Democratic ticket last fall, more than that, he is an unconquerable party man, standing by the party under all circumstances."

Davis Wont Have It. Leader Robert Davis, of Hudson County, says that while he appreciates the suggestion made by Congressman Daly that he be elected leader, he is content to stay where he is.

FAITH HEALERS TO BE HARD FOUGHT.

President Theodore Sutor, of the Medical and Legal Relief Society, has appointed a committee to discuss plans with a view to securing legislation to prevent the continuance of the practice of the healing art by any persons who are not licensed by the State authorities to do so.

How was authorized to appoint such a committee at the meeting of the society of which he is president, held on July 13 at the Waldorf-Astoria. The gentlemen he has named as members are: Edward Lauterbach, John Saline Smith, Howard P. Oke, Walter S. Logan, president of the N. Y. State Bar Association; S. L. Livingston, president of the Society of Medical Jurisprudence; Reynold W. Wilcox, M. D., president of St. Mark's Hospital; A. Ernest Galant, M. D., Dr. George F. Shady, editor of the Medical Record; Thaddeus D. Keneson and Theodore Sutor, who is an ex-fellow member, having been chairman of the meeting in question.

All of the gentlemen named have signified their willingness to serve upon the committee, and it is assumed that a thoroughly meeting of the necessities of the situation will be framed and presented at the next Legislature. A meeting of the committee will be called at an early date.

Mr. Sutor said yesterday: "The movement has the endorsement of the health authorities, of the medical circles of the city and of prominent and influential lawyers and laymen, and the committee, in framing its legislation, will have the assistance and aid of prominent lawyers and physicians, who are not members of the committee itself, and of course the Health Department. The County Medical Society, who are familiar with the existing laws, and the amendments that will be required to bring all persons practicing the healing art within the control of the State and local authorities."

It is wished to be thoroughly understood that this movement in no way contemplates, nor has it any purpose to attack or criticize or otherwise influence or assuage the belief or opinions of any cult, or person or persons whatever. Its sole and only object is to protect the people of the State of New York from being operated upon or treated when ill by ignorant or incompetent persons who are not authorized by the authorities of the State to treat sick people."

BOAT TURNS TURTLE; 5 DROWN.

They Were Skulking in a Skiff on the Patuxent River—One Woman Saved.

Baltimore, Md., Aug. 5.—Five persons were drowned early this morning by the capsizing of a small rowboat in the north-west branch of the Patuxent River, near this city.

Their names are Andrew Deems, William J. Lyman, James Walsh, Edward Gary and Mrs. Hoover.

They were returning from a day's outing at a pleasure resort and from the statements of Mrs. Deems, the only survivor, were skulking in the skiff when it capsized. Mrs. Deems, clinging to the overturned boat until rescued by Policeman James Kidd, who swam out to the boat.

William H. Elton Laid to Rest.

The funeral of William H. Elton, who was for years a doorkeeper in the Grand Central station, took place yesterday morning at Trinity Chapel, on West Twenty-fifth street. Mr. Elton was famed for his wit and his wonderfully receptive memory. Few of Mr. Elton's friends of the Grand Central station could attend the funeral, which was held in the evening at two large wood piles. Interment was at Greenwood.

RHINOCEROS AT ZOO TO BE OILED TO-DAY.

The Central Park Rhinoceros and How He Is Oiled. The beast is tied to his cage, is rubbed down with a brick and then soaked with oil until his hide glistens.

Simple Directions How You May Oil One Yourself.

PROF. SNYDER'S PET.

He Has Two Horns, Two Tongues and Two Front Legs.

They are going to oil the Park rhinoceros to-day. If the weather is good, Professor Snyder, its keeper, got a gallon of neatfoot yesterday from the grocery, and Pete Shannon has promised to borrow a fire brick from a Third Avenue plumber he knows.

The Park Department will supply water and a rope, and as every one knows, this is all you need to oil a rhinoceros. Now, it's easy enough to oil a bicycle or a sewing machine; but a rhinoceros is different. It's like a kitchen range. When you go to oil it, you never know which end is going off first.

Professor Snyder tried to oil this same rhinoceros a long while ago, but it didn't care to be oiled. So he leaned the professor against the cage and placed one hind foot where the professor usually carries his watch. Fortunately, he had left it at home on the piano, so it wasn't broken, which was different with the professor's ribs.

How to Oil Him.

When you go to oil a rhinoceros you usually tie up one end of him. Professor Snyder says it doesn't matter which end so long as you tie it fast. But as a rule he prefers the front end. Ordinarily the Professor can walk inside the cage and pat the "rhino" where he pleases, because the "rhino" knows him and isn't afraid he'll stick a pin into his kitchen porch when it is his turn to be oiled.

Mr. Sutor was authorized to appoint such a committee at the meeting of the society of which he is president, held on July 13 at the Waldorf-Astoria. The gentlemen he has named as members are: Edward Lauterbach, John Saline Smith, Howard P. Oke, Walter S. Logan, president of the N. Y. State Bar Association; S. L. Livingston, president of the Society of Medical Jurisprudence; Reynold W. Wilcox, M. D., president of St. Mark's Hospital; A. Ernest Galant, M. D., Dr. George F. Shady, editor of the Medical Record; Thaddeus D. Keneson and Theodore Sutor, who is an ex-fellow member, having been chairman of the meeting in question.

All of the gentlemen named have signified their willingness to serve upon the committee, and it is assumed that a thoroughly meeting of the necessities of the situation will be framed and presented at the next Legislature. A meeting of the committee will be called at an early date.

Mr. Sutor said yesterday: "The movement has the endorsement of the health authorities, of the medical circles of the city and of prominent and influential lawyers and laymen, and the committee, in framing its legislation, will have the assistance and aid of prominent lawyers and physicians, who are not members of the committee itself, and of course the Health Department. The County Medical Society, who are familiar with the existing laws, and the amendments that will be required to bring all persons practicing the healing art within the control of the State and local authorities."

It is wished to be thoroughly understood that this movement in no way contemplates, nor has it any purpose to attack or criticize or otherwise influence or assuage the belief or opinions of any cult, or person or persons whatever. Its sole and only object is to protect the people of the State of New York from being operated upon or treated when ill by ignorant or incompetent persons who are not authorized by the authorities of the State to treat sick people."

Few of Mr. Elton's friends of the Grand Central station could attend the funeral, which was held in the evening at two large wood piles. Interment was at Greenwood.

Hit by Flying Missiles.

John Bulger, of No. 200 East One Hundred and Third street, was struck in the left arm yesterday morning by a piece of flying wood from a steam saw in the lumber yard at One Hundred and Third and First avenue. The arm was broken.

Mr. Bulger was taken to the hospital, where he was struck in the head by a piece of flying iron. He sustained a possible fracture of the skull.

JOSEPH J. WILLETT MAKES KNOWN HIS AMBITION.

Van Wyck's Presidential Boomer Would Like to Name the Minority Leader in the Next Congress.

Joseph J. Willett, who launched the Augustus Van Wyck Presidential boom in Tammany Hall on Independence Day, is now seeking to get pledges from the Democratic representatives from this State in support of J. H. Bankhead for minority leader in Congress.

Mr. Bankhead hails from Fayette, Ala., and represents eight counties in that State. He has served five terms in Congress and is a self-educated, pushing, and competent Democrat.

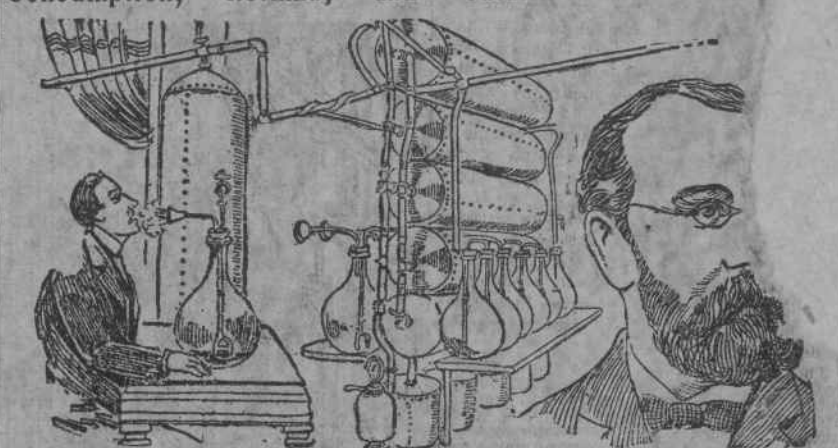

Mr. Willett is hopeful of securing enough votes here in support of Mr. Bankhead to control the Democratic delegation. He is counting confidently on the actual cooperation of Tammany in return for the

interest he has displayed in the advancement of Augustus Van Wyck. Mr. Willett is expected at Saratoga Saturday. A day or two later he will be there also, and then Mr. Willett will learn how the aspirations of his head are regarded.

William Sulzer is also an aspirant for the minority leadership. If he pushes his claims, and Tammany keeps its hands off, Mr. Sulzer will surely get the support of his own people here.

If he wins out, Mr. Willett's enthusiasm for Augustus Van Wyck may evaporate. Dropped Dead While Selling Fruit. An unknown woman, presumably an Italian, dropped dead in front of No. 274 Hudson street yesterday afternoon. The woman was a fruit peddler and had a basket of fruit on her arm. The body was removed to the Macdougal street station and the Coroner notified. The woman about sixty years of age; had mixed hair and wore a gingham waist, a skirt.

Consumption, Asthma, and Catarrh Cured at

THIS IS A PICTURE OF THE NEWLY DISCOVERED INVENTION, THE KOCH INHALATION. THIS IS A PICTURE OF PROFESSOR KOCH, OF BERLIN, THE ONLY MAN WHO EVER DID CURE CONSUMPTION.

No one denies the fact that Professor Koch, of Germany, cures consumption, asthma and catarrh.

The Government of his country employs him at an immense salary to cure consumption in the public hospitals.

He is the only man who ever did cure this fatal disease. His new system, which he is constantly improving, for curing consumption by the use of a new tuberculin is here in New York at the Koch Lung Cure, at 48 West 22d st., and 1209 Locust st., Philadelphia.

It has cured hundreds of New York people. Call and see the written testimonials, then call on those who have been cured right here in your own city.

This great medical philosopher, Professor Koch, of Berlin, has not only answered the question, what causes consumption? but proved beyond a doubt to all thinking physicians of the medical world that consumption is caused by a poisonous germ called the tubercle bacillus, existing in the lungs of patients having consumption.

This bacillus can be seen by the aid of a microscope. It multiplies in numbers as the disease advances in its onward road to destruction. At the meeting of physicians at his home in Berlin last May his treatment was again endorsed. The Emperor of Germany attended the opening meeting, at which over two thousand physicians were present.

The great professor in his years of study discovered a medicine called tuberculin, or lymph, which can be injected into the circulation, or by combining it with healing oils it is thrown into fine vapors by the use of the Koch inhalation apparatus.

These vapors are easily breathed into the air tubes, causing the lungs to be entirely filled with these healing oils, and the lungs are healed as if by magic. The vapors are composed of antiseptics, disinfectants and the great Koch tuberculin, and the effect is to kill the disease germs and expel them. In fact, the form of germ life can live when thoroughly under the influence of the Koch inhalation.

The New York Koch headquarters are at 48 West 22d st.; the Philadelphia office is at 1209 Locust st. Send for the Koch lung cure booklet. The physicians of New York are invited to join the classes of instruction beginning the first Monday of every month. The trial treatment is here given free to prove the wonderful value of the new Koch system.

Many cures have been made in New York of patients who have been given up to die by the best medical men, and many testimonials have been published by the patients themselves to show their gratitude.

The addresses will be gladly given. If you don't believe the patients, call upon their neighbors, and you will get the truth. Call and see the wonderful inhalation invention. You will find that this treatment has absolutely cured hundreds of patients after every known medicine has failed.

Don't take any more medicine into the stomach. Lung medicine is always hard on the stomach. The Koch inhalation and medicine is doing for New York people a great work.

Be sceptical if you will until you have investigated, but investigate and find out the truth. The doctors invite sharp criticism. Their cures will bear investigation.

Consultation and examination free. Cut this out, as it may not appear again.
